Shower Door Hinges & Clamps

Morse Industries shower hinges are made of solid brass with all moving parts (pins and springs) in stainless steel. A removable protective insert covers the interior rounded ("mouse ear") portion of the hinge. This helps keep the glass from slipping off the hinge and protects it from metal contact, extending the life of both the hinge and the glass. Hinges are made to accommodate 3/8" to 1/2" (10 to 12 millimeter) glass, are self centering, and contain a 0° return with reversible 5° pin (preset 5° pins also available).

Paladia Series Hinges

Available in Brushed Nickel, Polished Bright Chrome, and Oil Rubbed Bronze. Other finishes may also be special ordered.

Part#	Description
C50-0001	Beveled Edge Wall Mount H-Back Plate Hinge

Square Edge Wall Mount Short Back Plate Hinge

C50-0014

Square Edge Wall Mount Offset Back Plate Hinge

C50-0013

Beveled Edge Wall Mount H-Back Plate Hinge

Morse Industries shower glass clamps are made of solid brass in a variety of finishes and can accommodate 3/8" to 1/2" (10 to 12 millimeter) glass. Used for securing fixed panels in a shower enclosure application, they may be attached to curb, ceiling or wall. Clear silicone can be added to provide a clean, water tight appearance.

Traditional Glass Clamps

Available in Brushed Nickel, Polished Bright Chrome and Oil Rubbed Bronze. Hole diameter required: 5/8" (16mm), 3/4" (19mm).

Part#	Description
C50-0031	Traditional Style Fixed Panel Clamp
C50-0032	Oversized Fixed Panel Clamp

Each clamp includes neoprene gaskets and fasteners

C50-0031

1 3/4" x 1 3/4"

C50-0032

1 3/4" x 1 15/16"

Heavy Duty Hole-In-Glass Style Clamps

Available in Brushed Nickel, Polished Bright Chrome and Oil Rubbed Bronze. Hole diameter required: 3/4" (19mm).

Part#	Description
C50-0033	Square Edge - Hole in Glass Wall Mount Clamp
C50-0034	Beveled Edge - Hole in Glass Wall Mount Clamp

Each clamp includes neoprene gaskets and fasteners

C50-0033

2" x 2"

C50-0034

2" x 2"

NOTE: The stud that goes through the hole made in the glass is positioned further from the edge of the glass than that of the standard clamp. This makes the Oversized Clamp the preferred clamps of most temperers for 1/2" (12mm) glass.

Towel Bars & Door Pulls

Our shower towel bars and pulls are constructed of 3/4" (19mm) stainless steel or brass tubing (inquire for availability) and are available in finishes matching our frameless shower hinge collection. 1" (25mm) is also available via special order.

Single Towel Bar with Shower Door Pull Knob

Includes both decorative removable metal washers as well as interior plastic washers to protect glass against metal contact. End caps are also available for both ends of towel bar to allow for bypass doors. Available in Brushed Nickel, Polished Bright Chrome, and Oil Rubbed Bronze. Other finishes may also be special ordered.

Part#	Length
-------	--------

C60-0020	18"
C60-0021	24"
C60-0022	26"

Each handle includes an Allen wrench

Double Towel Bar

Includes both decorative removable metal washers as well as interior plastic washers to protect glass against metal contact. Available in Brushed Nickel, Polished Bright Chrome, and Oil Rubbed Bronze. Other finishes may also be special ordered.
