Introduction

In 2019, CAHU introduced the Women's Leadership Summit (WLS) as a first-of-its-kind CAHU event, focused on gathering existing and aspiring women leaders in our industry to help develop, grow and encourage likeminded individuals as the industry shifts and expands. The event was a smashing success and we are elated to be hosting our 2nd Annual WLS in March, 2022.

While our first summit was limited to 100 attendees plus our sponsor partners, we have expanded capacity due to the high demand to attend our next summit. We expect to double attendance, while still providing an atmosphere that encourages relationship building, frank and open discussions, and most of all, an opportunity to learn and grow.

Program Highlights

We're assembling an array of powerhouse speakers and content to deliver this very special program, focused on empowering women leaders both within and outside the insurance industry.
