(Arambula D) Medi-Cal: eligibility.

Current Text: Amended: 5/17/2019 [html](#) [pdf](#)

Introduced: 12/3/2018

Last Amend: 5/17/2019

Status: 7/10/2019-Failed Deadline pursuant to Rule 61(a)(10). (Last location was HEALTH on 6/6/2019)(May be acted upon Jan 2020)

Location: 7/10/2019-S. 2 YEAR

Summary: Current law requires that individuals under 19 years of age enrolled in restricted-scope Medi-Cal at the time the Director of Health Care Services makes a determination that systems have been programmed for implementation of these provisions to be enrolled in the full scope of Medi-Cal benefits, if otherwise eligible, pursuant to an eligibility and enrollment plan, which includes outreach strategies. Current law makes the effective date of enrollment for those individuals the same day that systems are operational to begin processing new applications pursuant to the director's determination, and requires the department to seek any necessary federal approvals to obtain federal financial participation for purposes of implementing the requirements. Current law requires that benefits for services under these provisions be provided with state-only funds only if federal financial participation is not available for those services. This bill would extend eligibility for full-scope Medi-Cal benefits to individuals of all ages, if otherwise eligible for those benefits, but for their immigration status, and would delete provisions delaying eligibility and enrollment until the director makes the determination as specified.

Notes 1: CAHU SUPPORTS AB4 which brings California close to universal healthcare by providing access to basic coverage to all residents. This bill may also lower the costs of unreimbursed medical treatment which is subsidized by our client's insurance premiums.

This became a 2 year bill when the Governor and legislature agreed to pass the Governor's 2019-20 Budget (SB 104) which expanded eligibility for full-scope Medi-Cal to individuals under the age of 26, regardless of immigration status.

Status: 7/10/2019-Failed Deadline pursuant to Rule 61(a)(10). (Last location was INS. on 5/16/2019)(May be acted upon Jan 2020)

Location: 7/10/2019-S. 2 YEAR

Summary: Current law generally regulates the business of insurance in the state, including the licensing of persons who transact insurance. Current law prohibits a person from soliciting, negotiating, or effecting a contract of insurance without a valid license from the Insurance Commissioner, and makes transacting insurance without a valid license punishable as a misdemeanor by imprisonment in a county jail for not more than one year, a fine of not more than \$50,000, or both that fine and imprisonment. This bill would increase the maximum fine for transacting insurance without a valid license to \$70,000.

Organization	Position	Subject	Group
CAHU	Support	Medi-care	CAHU TOP PRIORITY BILL, Priority 2

Notes 1: Along with IIABCal, and NAIFA, CAHU is in SUPPORT of AB 207 which would increase the fine for transacting insurance without a valid license. Our associations have a long history of supporting legislation attempting to address the issue of bad actors in the insurance marketplace. AB 207 would enhance the Department of Insurance's ability to fine unscrupulous individuals who are avoiding the very stringent licensing laws and taking advantage of consumers.

Summary: Current law requires the license of a residential property broker-agent, casualty broker-agent, personal lines broker-agent, or limited lines automobile insurance agent to be prominently displayed in the holder's office. Current law requires the Insurance Commissioner to impose a \$200 fine for the first violation of that requirement if it is not corrected within 45 days, and authorizes the commissioner to impose a \$400 fine if another violation is committed within 3 years of the first violation. This bill would require a broker-agent, agent, or licensed organization that maintains multiple offices to prominently display a copy of its license in each office.

This bill would require the Exchange to develop options for the inclusion of in vitro fertilization coverage as part of, or as supplementary to, coverage currently offered through Covered California, in consultation with stakeholders and by considering specified options. The bill would further require the Exchange, on or before July 1, 2020, to report the options to the Legislature and make the report publicly available on its internet website.

CAHU	Oppose		CAHU TOP PRIORITY BILL, Priority 2

Notes 1: CAHU is OPPOSED to AB 767 because the associated costs could devastate the small group health insurance market, where employers are not required to provide coverage and are sensitive to price increases, and may elect to drop coverage for employees. The average cost of fertility treatment is \$22K per treatment and it takes an average of three treatments to be effective. There is also concern that this bill could also lead to medical tourism in CA.

FLB will report the analysis of CHBRP analysis being done on this bill.

<http://analyses.chbrp.com/document/view.php?id=1410>

"Expenditures. AB 767 would increase total net annual expenditures by \$850,696,000 or 0.49% due to a \$537,777,000 increase in total health insurance premiums, adjusted by decrease in enrollee expenses for covered and/or noncovered benefits.

a. Enrollees with uncovered expenses at baseline would receive on the whole a \$133,897,000 reduction in their out-of-pocket spending for covered and noncovered expenses.

b. Per member per month premiums would increase between \$2.76 for enrollees in CalPERS HMOs (an increase of 0.47%) and \$3.72 in the DMHC-regulated small group market (an increase of 0.68%)."

CAHU	Support		CAHU TOP PRIORITY BILL, Priority 3

Notes 1: CAHU SUPPORTS AB 981 (Daly) when amends the Insurance Information and Privacy Protection Act (IIPPA) to make it clear that entities governed by the IIPPA are not subject to the California Consumer Privacy Act of 2018 (CCPA).

This will ensure continued consumer protection while avoiding different and conflicting standards which may work counter to the best privacy and security protection for consumers. If there are additional consumer protections needed beyond those provided in the IIPPA, a much better solution would be to clarify such issues in the IIPA.

Trying to reconcile the CCPA with a long standing and well-vetted insurance-specific law will result in foreseeable legal conflicts, and jeopardize the critical balance achieved in current privacy and security laws applicable to and strongly supported by insurers.

The bill would require a health care service plan or insurer to pay a noncontracting hospital for emergency services rendered to an enrollee or insured pursuant to a specified formula, would require a noncontracting hospital to bill, collect, and make refunds in a specified manner, and would provide a dispute resolution procedure if any party is dissatisfied with payment.

Location: 5/29/2020-A. DEAD

Summary: Would clarify that a health care service plan may require step therapy if there is more than one drug that is appropriate for the treatment of a medical condition. The bill would require a health care service plan or health insurer to expeditiously grant a step therapy exception if specified criteria are met. The bill would authorize an enrollee or insured or their designee, guardian, primary care physician, or health care provider to file an appeal of a prior authorization or the denial of a step therapy exception request, and would require a health care service plan or health insurer to designate a clinical peer to review those appeals. The bill would require a health care service plan, health insurer, or utilization review organization to annually report specified information about their step therapy exception requests and prior authorization requests to the Department of Managed Health Care or the Department of Insurance, as appropriate.

Introduced: 2/10/2020

Status: 6/9/2020-In Senate. Read first time. To Com. on RLS. for assignment.

Location: 6/9/2020-S. RLS.

Summary: Current law requires the Department of Managed Health Care and the Department of Insurance to establish an independent dispute resolution process to resolve a claim dispute between a health care service plan or health insurer, as appropriate, and a noncontracting individual health professional, and sets forth requirements and guidelines for that process, including contracting with an independent organization for the purpose of conducting the review process. Current law requires each department to establish uniform written procedures for the submission, receipt, processing, and resolution of these disputes, as specified. Existing law requires the independent organization, in deciding the dispute, to base its decision regarding the appropriate reimbursement on all relevant information. This bill would require the procedures established by each department to include a process for each party to submit into evidence information that will be kept confidential from the other party, in order to preserve the confidentiality of the source contract.

Notes 1: CAHU SUPPORTS AB 2157 which modifies the Independent Dispute Resolution Process created by AB 72 (Bonta), in 2016 by expanding & requiring additional procedures between a health care service plan or health insurer, and non-contracting health professionals. Through ongoing service and support for clients , we see firsthand the importance for our clients to have clear coverage options without the confusion and financial instability that balance billing creates. We are hopeful this bill may lead to more fair and timely billing practices and may reduce the use of balance billing.

Summary: Current state law creates the California Health Benefit Exchange (Exchange), also known as Covered California, to facilitate the enrollment of qualified individuals and qualified small employers in qualified health plans as required under PPACA. Until January 1, 2023, existing law requires the Exchange to administer a program of financial assistance, and authorizes the program to provide assistance, including premium assistance subsidies, to program participants with household incomes at or below 600% of the federal poverty level. This bill, contingent upon an appropriation by the Legislature, would reduce premiums to zero for program participants with household incomes at or below 138% of the federal poverty level, and would scale the premium assistance subsidy amount for program participants with household incomes of 139% to 600%, inclusive, of the federal poverty level pursuant to the program design adopted by the board of the Exchange.

Notes 1: CAHU SUPPORTS (L3) SB 746 which would include anticancer devices as a part of covered cancer treatment. This would provide an extension/clarification of what is assumed to be coverage in place for consumers. Too often, when

cancer patients are being told their options, an anticancer device is brought to their attention that they want to utilize, only to find out it is not covered.

(Beall D) Health care coverage: substance use disorders.

Current Text: Amended: 4/24/2020 [html](#) [pdf](#)

Introduced: 1/14/2020

Last Amend: 4/24/2020

Status: 5/29/2020-Failed Deadline pursuant to Rule 61(b)(5). (Last location was HEALTH on 1/22/2020)

Location: 5/29/2020-S. DEAD

Summary: Would require health care service plan contracts and health insurance policies issued, amended, or renewed on or after January 1, 2021, that provide outpatient prescription drug benefits to cover all medically necessary prescription drugs approved by the United States Food and Drug Administration (FDA) for treating substance use disorders that are appropriate for the specific needs of an enrollee or insured. The bill would require those drugs to be placed on the lowest cost-sharing tier of the plan or insurer's prescription drug formulary, unless specified criteria are met. The bill would, among other prohibitions, prohibit prior authorization or step therapy requirements on a prescription drug approved by the FDA for treating substance use disorders, unless specified criteria are met.

Notes 1: CAHU is OPPOSED L2 to SB 854 which would require plans and policies regulated by the California Department of Managed Health Care (DMHC) or the California Department of Insurance (CDI) that include a pharmacy benefit to place all medications approved by the federal Food and Drug Administration (FDA) and indicated for treatment of substance use disorders (SUDs) on the formulary's lowest tier. SB 854 would also prohibit application of step therapy ("fail first"), prior authorization, and some other utilization management protocols for the coverage of these FDA-approved SUD medications. In addition, SB 854 would prohibit application of prior authorization protocols to the coverage of behavioral health services that are "in conjunction" with the FDA-approved SUD medications. SB 854 would exempt from compliance DMHC-regulated plans enrolling Medi-Cal beneficiaries.

(Wiener D) Health coverage: mental health or substance abuse disorders.

Current Text: Amended: 6/18/2020 [html](#) [pdf](#)

Introduced: 1/14/2020

Location: 6/22/2020-S. THIRD READING

Calendar: 6/24/2020 #38 SENATE SENATE BILLS -THIRD READING FILE

Summary: The California Mental Health Parity Act requires every health care service plan contract or disability insurance policy issued, amended, or renewed on or after July 1, 2000, that provides hospital, medical, or surgical coverage to provide coverage for the diagnosis and medically necessary treatment of severe mental illnesses of a person of any age, and of serious emotional disturbances of a child under the same terms and conditions applied to other medical conditions, as specified. Existing law requires those benefits to include, among other things, outpatient services, inpatient hospital services, partial hospital services, and prescription drugs, if the plan contract or policy includes coverage for prescription drugs. This bill would revise and recast those provisions, and would instead require a health care service plan contract or disability insurance policy issued, amended, or renewed on or after January 1, 2021, provide coverage for medically necessary treatment of mental health and substance use disorders, as defined, under the same terms and conditions applied to other medical conditions.

CAHU	Watch		CAHU TOP PRIORITY BILL, New Mandate

Notes 1: CAHU is watching SB 855 which repeals California’s mental health parity law and replaces it with a requirement on health plans and disability insurers to cover medically necessary treatment of mental health and substance use disorders under the same terms and conditions applied to other medical conditions. Establishes extensive requirements for medically necessary care determinations and utilization review.

SB 983

(Rubio D) Unused medications: cancer medication recycling.

Current Text: Introduced: 2/12/2020 [html](#) [pdf](#)

Introduced: 2/12/2020

Status: 5/29/2020-Failed Deadline pursuant to Rule 61(b)(5). (Last location was B., P. & E.D. on 5/12/2020)

Location: 5/29/2020-S. DEAD

Summary: Would establish a program for the collection and distribution of eligible unused cancer medications, to be known as the Cancer Medication Recycling Act. The bill would require each participating practitioner, as defined, in the collection and distribution of those medications to be registered with the board, as specified, and would require the board to create a registry for participating practitioners, including developing both a donor and a recipient form containing specified information. The bill would authorize the board to charge a fee, not to exceed \$300, as specified, to issue or renew the registration certificate of a participating practitioner under the program. The fee would be deposited in the Contingent Fund of the Medical Board of California.
